

FastERP kasutusjuhend

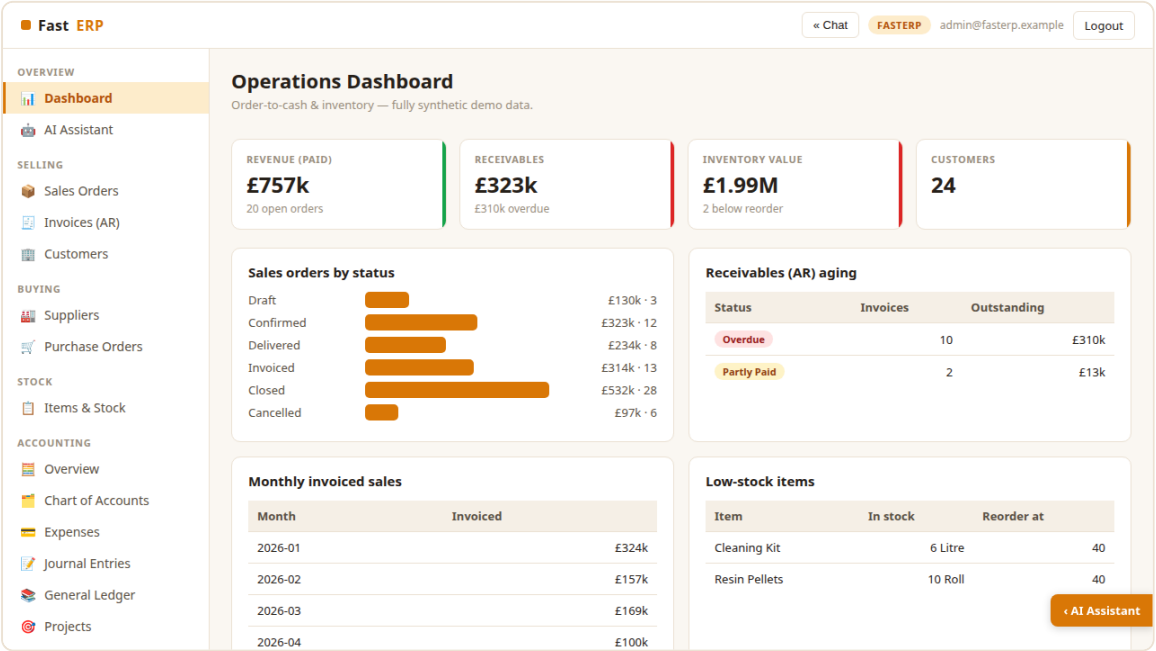

Müü, tarni, esita arve, võta makse vastu — ja hoia raamatupidamine tasakaalus.

Iseseisev sünteetiline näidis · Intuiti ühendust ei kasutata

Tegevuste töölaud

Igapäevane töölaud näitab laekunud müügitulu, nõudeid, laoväärtust ja avatud tellimusi. Graafikud toovad esile tellimuste olekud, tähtaja ületanud nõuded ja madala laoseisuga kaubad. Laiema tööala saamiseks saab AI-paneeli sulgeda.

Müügitellimused

Ava **Selling** → **Sales Orders**, et filtreerida tellimusi oleku järgi või otsida klienti ja viidet. Iga rida näitab tarneaega, töövoo olekut ja kogusummat.
