

FastERP Platform Guide

2026-08-19 | <https://erp.fastsmc.com>

FastERP is an open-source **ERP** built with — a server-side, HTMX-driven ERP with behavior informed by public ERP workflows and an independently designed Python/PostgreSQL implementation. It covers **Order-to-Cash, Procure-to-Stock, Inventory and Accounting** with deterministic synthetic data. Python-first, no Java

One operational backbone for the whole business.

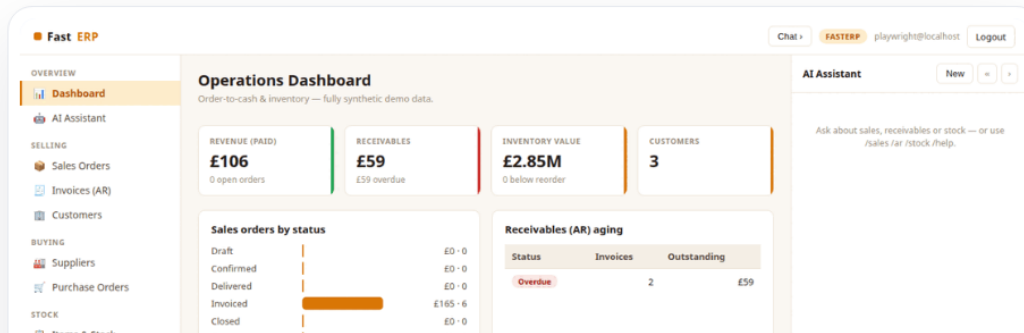

BUSINESS OPERATIONS

One operational backbone for the whole business.

Connect sales, purchasing, inventory, invoicing, payments, projects, expenses, and the general ledger.
